

WOODCARE

PATENT KNOTTING

For use on knots and resinous areas prior to painting.

Reduces discolouration of topcoats.
A quality knotting made from Shellac.

Caution: We recommend doing a test area first to ensure compatibility with top coats/paint systems to be used. When using lighter coloured paints or water based paints, we recommend using "White Knotting".

SHAKE WELL

Instructions for use: Ensure all surfaces are sound, clean dry and free from any contaminants. Sand down thoroughly ready for priming and ensure all dust is removed. Wipe knots with Methylated Spirit prior to applying knotting. Apply one coat of knotting over and around all knots and resinous areas working well in, ensuring all knots are properly sealed. Apply a second coat if required after a minimum of one hour. If knots are exuding excessive resin it is recommended to remove them and make good with wood filler.

FOR INTERIOR AND EXTERIOR USE. Drying time one hour.

HEALTH, SAFETY & ENVIRONMENTAL INFORMATION

Highly flammable liquid and vapour. Causes serious eye irritation. Keep out of reach of children. Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. No smoking.
